Chicago, Ill.

The

# Key to Satisfaction

SUPPLEMENTING this, our General Catalogue, with its extensive display of special designs, we issue a special catalogue — THE KEY TO SATISFACTION — which wide-awake dealers will find of particular value. It is designed to show how to obtain prompt shipments and contains nothing but what we carry in stock and can ship immediately on receipt of order. It gives a complete list of the sizes of our Standard Stock Goods, cuts and descriptions of same, packing, shipping and billing rules, in fact, a concise explanation of the cleanest business system extant. It is a money saver to both buyer and seller.

## MARK DOWN THESE POINTS.

... MONEY IS SAVED by making your orders conform to the Standard Stock Sizes carried by the wholesale trade, because they are made in quantities and cost proportionately less.

.... PROMPT SHIPMENTS are assured when you order the Standard Patterns, because we always have them on hand and it is necessary only to pack them for shipment. It takes time and costs money to make odd work.

.... MISTAKES ARE AVOIDED when you order regular listed sizes. Special measurements, descriptions and drawings are often inaccurate, but when you order from the key we know what you want.

WE HAVE THE LARGEST
and MOST COMPLETE STOCK
of all kinds of MILL WORK IN AMERICA.

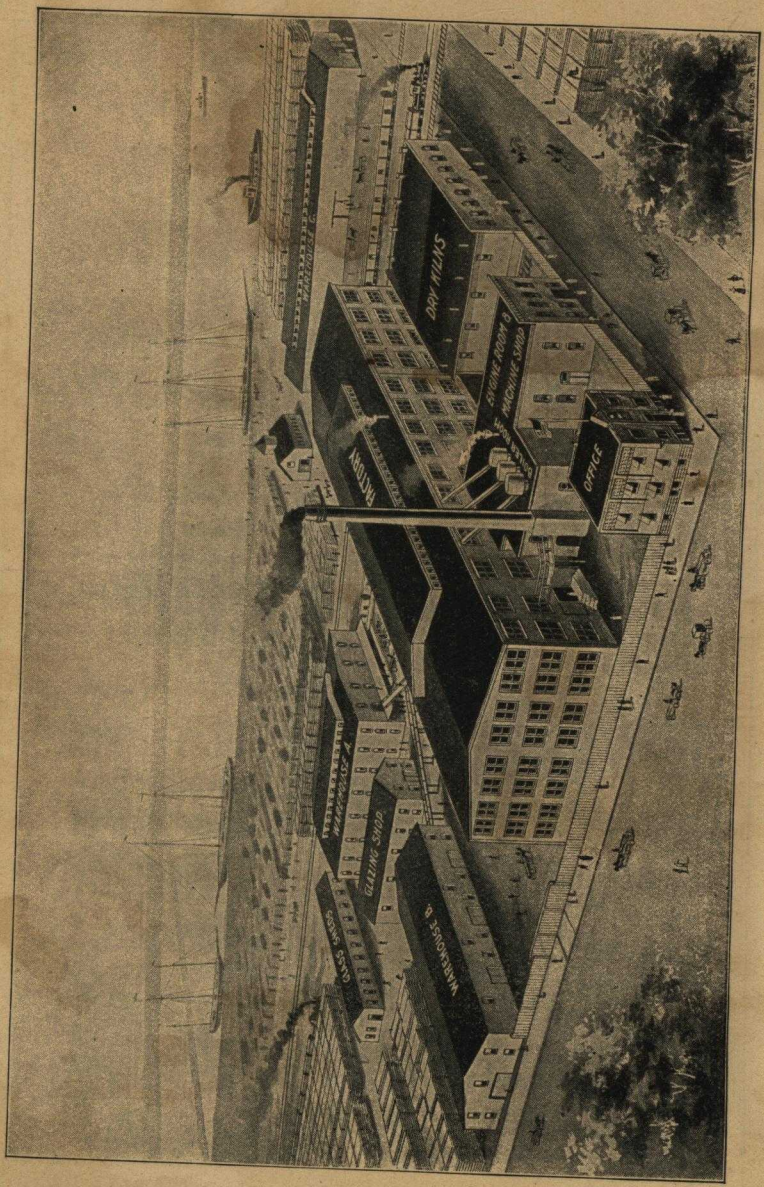
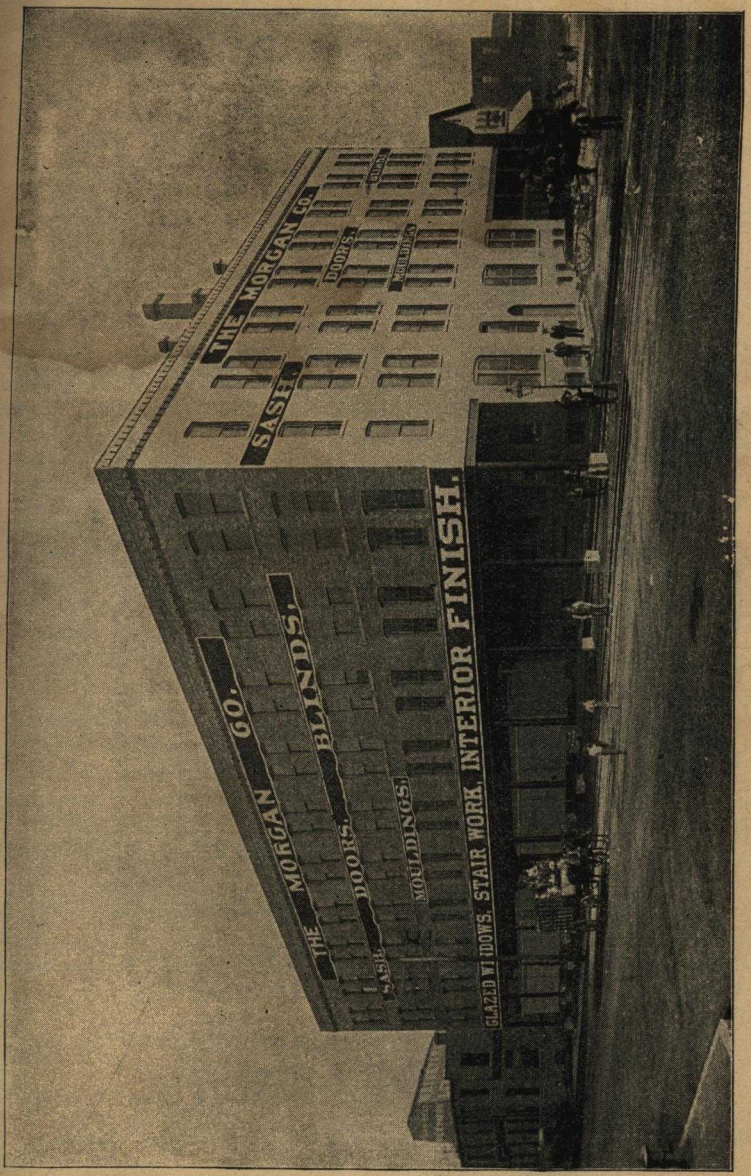
CHICAGO, ILL.



Factory and Headquarters Office of THE MORGAN COMPANY,
Oregon, 5th and 6th Streets, Oshkosh, Wisconsin.



**Warehouse and office of THE MORGAN COMPANY,**
**West 22nd and Union Streets, Chicago, Ill.**

To get to our plant from down-town business center, take Halsted street cable car on Adams street to 22nd street and walk one block east.

Or take Canalport avenue electric car at Madison street and Fifth avenue to Union street and walk two blocks south.

# To the Trade

WE TAKE PLEASURE in presenting to you a copy of our latest Catalogue, confident that if measured by QUALITY rather than QUANTITY, you will not fail to appreciate its merit, and give it a place on your desk, to the possible exclusion of some larger books, less modern and practical.

We have endeavored to select the most practical designs and styles of mill work now in demand, our judgment being based on years of experience, but at the same time have kept in mind that the taste of buyers is constantly changing, and that styles which were "good sellers" in our earlier years have given place to other "good sellers" to-day, hence this revision was a necessity, as well as a pleasure.

As we manufacture all our goods at OSHKOSH, Wisconsin, the shipments of to-day will be found in complete harmony as to quality, style and workmanship with those you have heretofore had from us, whether shipped from FACTORY direct, or from our warehouses in CHICAGO, where will be found the LARGEST and BEST ASSORTMENT of these goods in this, or any other, Sash and Door market.

INSPECTION and CORRESPONDENCE is respectfully invited by both our OSHKOSH and CHICAGO offices, and these cannot fail to be convincing as to our ability to fill all orders placed with us promptly, and with goods of the best quality offered in any market.

Yours very truly,

THE MORGAN CO.,

West 22nd and Union Streets,
CHICAGO, ILL.

Oregon and 6th Streets,
OSHKOSH, WIS.

# SPECIAL NOTICE

The attention of the trade is particularly called to the careful manner in which we fill all

SMALL LOT ORDERS
FOR DISTANT POINTS.

We exercise great care in packing to protect such goods, CRATING and BUNDLING THEM SECURELY, thus avoiding the damage commonly occasioned by breakage and soiling in transit.

This item is of great importance to all who are ordering in less than carload lots.

# Do Not Cut This Book....

ORDER BY NUMBER ONLY.

If design is not found in this book, give us

NUMBER OF DESIGN and
NAME OF MANUFACTURER,

and you will get what you wish.

# DIRECTIONS FOR ORDERING.

## PLEASE NOTE THE FOLLOWING:

It is economy to conform to regular sizes and styles as much as possible.

Be explicit in giving orders, and state fully your wants. Do not assume that we know them.

When ordering work outside of regular styles, as given in this book, give sketch or section. A rude drawing will often answer the purpose.

Plans and drawings in detail should accompany all complicated orders, and specification, giving bill of items, sizes, and quality of material required, thereby saving delay and cost of alterations.

In ordering Sash, Doors and Blinds, **always give width first.** Use terms, when practicable, as given in this book.

---

**SASH:** Give size of glass, number of lights in window, thickness, and state whether open or glazed. If glazed, whether single or double strength glass. If not regular listed sizes, give arrangement and number of lights, and size of opening, in addition to above.

**SEGMENT AND CIRCLE HEAD SASH:** State whether windows are to finish segment or circle inside and out, as figures No. 1 and No. 3 on page 9, or square inside and segment or circle outside, as shown in figures No. 2 and No. 4. Give radius to inside edge of face casing also, or when not specified, we make windows according to regular radius, viz: The width of window.

**ELLIPTIC HEAD SASH:** Give full sized pattern ; if frames have been made, if stock other than regular Western sizes, as shown by this list, made with our standard sticking, No. 107, is required, give full outside measurements, and style of sticking desired.

**DOORS:** Give size, thickness and quality, and state number of panels. If more than five panels, make sketch showing the arrangement of same. State also if O. G. or P. G. or other solid mould is desired, otherwise we make our stock mould O. G.

**MOULDED DOORS:** In addition to above, state if raised or flush moulding is required, or give number of plate showing pattern desired.

**BLINDS:** State size of glass, and number of lights in windows for which they are intended; give thickness desired, whether rolling or stationary slats, and if for segment head frames give radius.

**INSIDE BLINDS:** Give exact size of opening, thickness, size and number of lights in window, distance from top of window to center of meeting rail of sash, or to where the blinds are to be cut, number of folds, whether made with panels or with slats, showing arrangement of same. If blinds fold in pockets, give width of pockets.

**FRAMES:** Give size and thickness of door or window, and if for window, state whether same be plain or check rail, also if pulleys are desired. State whether for brick or frame building. If for brick building, give thickness of wall; if for frame building, give width of studding.

## DIRECTIONS FOR ORDERING.—Continued.

For **INSIDE DOOR JAMBS,** give width of jamb and state whether rabbet or stops are required.

**MOULDINGS:** We use the Chicago Moulding Book. In ordering give numbers shown in same, or send detail drawing when ordering special mouldings.

# OFFICIAL GRADES OF SASH, DOORS AND BLINDS

**Adopted by the Wholesale Sash, Door and Blind Manufacturers' Association of the Northwest, July 18, taking effect August 15, 1894.**

**DOORS:** **No. 1 DOORS:**—Material in No. 1 Doors must be clear, with exception that water stain and white sap and small pin knots not exceeding one-fourth (¼) inch in diameter may be admitted. Workmanship must be good. The Standard No. 1 Door may be glued, wedged and pinned or glued tenons without pins.

**No. 2 DOORS:**—Material in No. 2 Doors may contain knots not to exceed three-quarters (¾) inch in diameter and blue sap showing on both sides not to exceed fifty (50) per cent. in any one piece of the Door and gum spots showing on one (1) side only, and other slight defects, but the total number of defects (not including blue sap) shall not exceed ten (10) in number on each side. Slight defects in workmanship admitted.

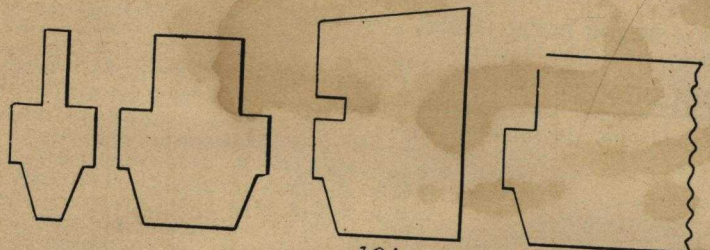
**No. 3 DOORS:**—Material in No. 3 Doors may contain stained sap and knots not exceeding one and one-half (1½) inch in diameter, also small worm holes showing on one (1) side only and slight streaks of fine shake. Fifteen (15) defects other than sap stains and worm holes on each side may be allowed, also slight defects in workmanship. Panels of woods other than white pine admitted.

**WINDOWS:** **CHECK RAIL WINDOWS** may contain not to exceed two (2) knots in each piece of the sash, said knots not to exceed three-eighths (⅜) inch in diameter. White sap and a small amount of blue sap may be admitted. Workmanship must be good.

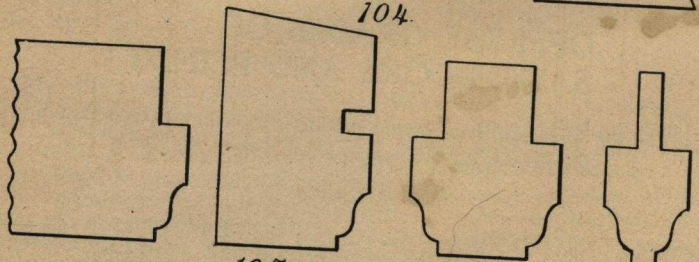
**PLAIN RAIL WINDOWS AND SASH** may contain blue sap and small knots.

**BLINDS:** **OUTDIDE BLINDS** must be made of clear lumber, except that small sound pin knots and white sap may be admitted. Workmanship must be good.

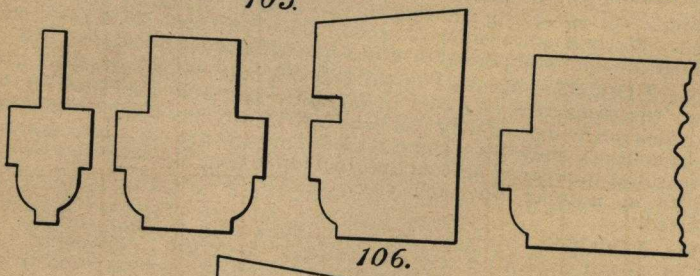
## DESIGNS OF SASH STICKING.



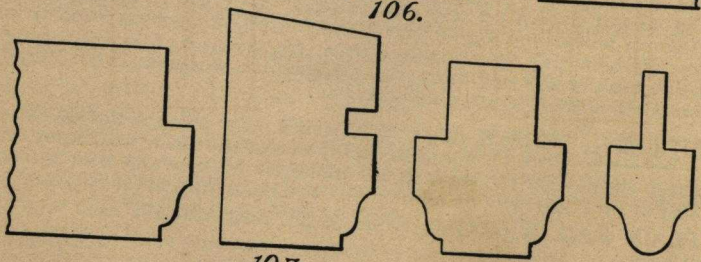
104.



105.



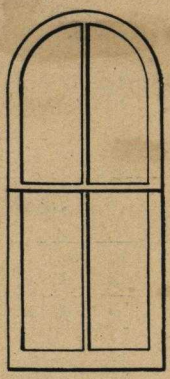
106.



107.

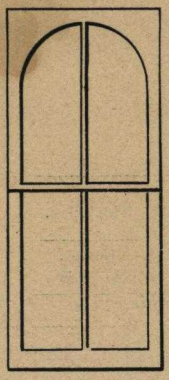
Our Standard Sticking is No. 107.
We make to order the Special Sticking of ANY MARKET.

# CIRCLE AND SEGMENT HEAD WINDOWS.



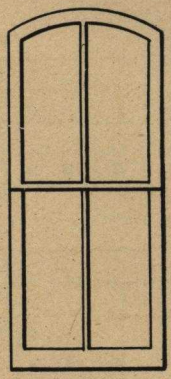
1

For Window Frames, Circle inside and outside.



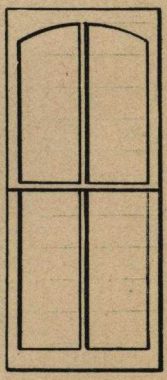
2

For Window Frames, Circle outside, Square inside.



3

For Window Frames, Segment inside and outside.



4

For Window Frames, Segment outside, Square inside.

Always give the **radius** of the **segment,** otherwise we shall make our **regular radius, which is the width** of the window.

Windows made in the above forms can be filled with any number of lights required.

## IMPORTANT.

A **Window** indicates two pieces. A **Sash** indicates one piece. A **Pair** of **Blinds** indicates two pieces. A **Blind** indicates one piece. A **Set of Sash** or **Blinds** indicates **more than two pieces,** and order should be accompanied with sketch.

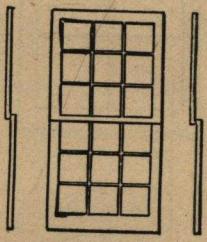
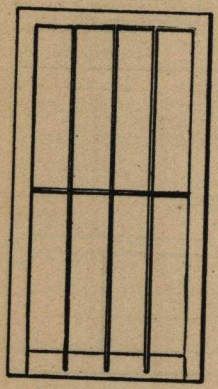
## PLAIN AND CHECK RAIL

Fifteen and Eighteen Light Windows.



### LIST PRICE.

For 15 Light Windows Unglazed, add to open list of 12 Light, one-third.
For 18 Light Windows Unglazed, add to open list of 12 Light, two-thirds.
For 15 Light Windows Glazed, add to glazed list of 12 Light, one-quarter.
For 18 Light Windows Glazed, add to glazed list of 12 Light, one-half.



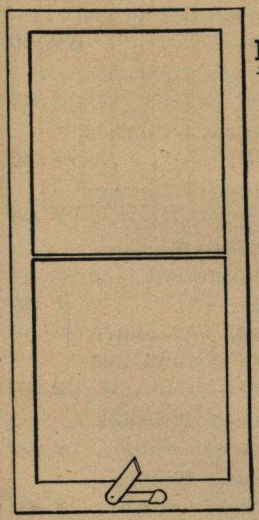
## HOTBED SASH.

Made for 6 or 7 inch Gless.

| Size of Sash. | | | | Thickness. | Price each Sash Open. | Price each Sash Glazed. |
|---|---|---|---|---|---|---|
| Ft. | In. | Ft. | In. | Inches. | $ cts. | $ cts. |
| 3 | 0 x | 6 | 0 | 1 3-8 | 2.20 | 7.50 |
| 3 | 0 x | 6 | 0 | 1 3-4 | 3.30 | 8.60 |

We manufacture to order Hot-bed Sash in any size or style wanted, with hardwood or iron cross-bar to strengthen the sash, at extra prices.

# STORM SASH.



Two light—Ventilator open.

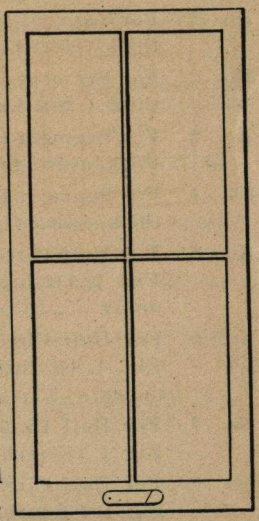
## Please Notice...

We make our Storm Sash with 2¼-inch stiles. If 3-inch stiles are wanted, order must so state, otherwise we will send our regular width.

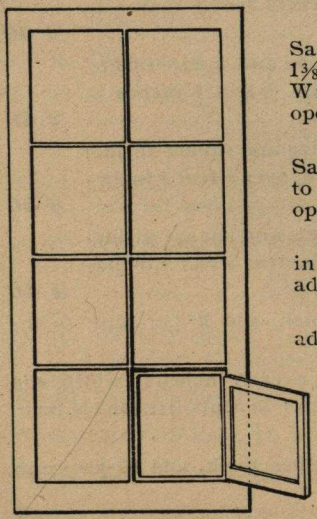
Size of openings, same as blinds.

We can make one or more Ventilators in bottom rail of sash, as shown in cuts.

If ventilators are wanted order must so state.



Four light—Ventilator closed.



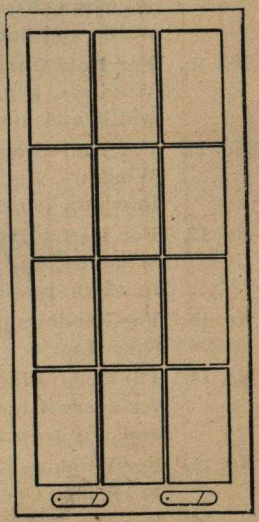
Eight light—Swing light ventilator.

1⅛-inch Storm Sash, same price as 1⅜-inch Check Rail Windows. Same opening.

1⅜-inch Storm Sash, add 15 per cent to 1⅜ Check Rail open list.

For Ventilators in top or bottom rail, add 10 cents each net.

For Swing light, add 40 cents net.



Twelve light—Double ventilator.

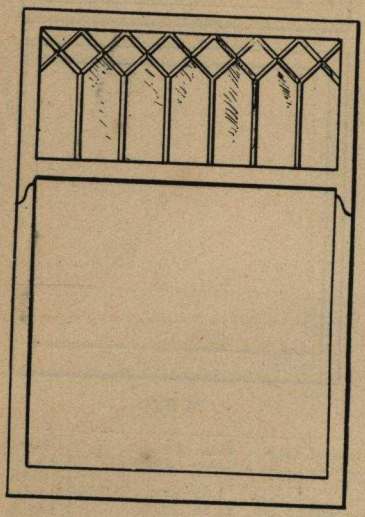
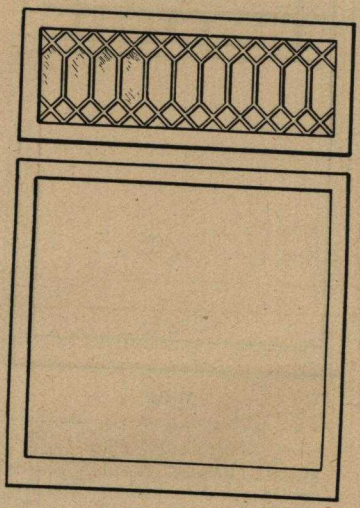
# FRONT WINDOWS

Write for Our Special Prices.



M. A.



M. B.

On pages 28, 29, 30 and 31 are shown designs of Stock Patterns of FRONT WINDOWS, and list prices on same.

On this, and following pages, are given designs of more expensive FRONT WINDOWS, with the upper sash glazed with Beveled or Leaded Art Glass, and we suggest that the lower sash be glazed with Plate Glass in first class jobs.

Our workmanship on Circle, Oval and Gothic Sash is of the best, and designs and finish of Beveled Plate and Leaded Art Glass are of the highest order.

We thoroughly float all of our Leaded Art Glass, thus making a smooth, firm light.

For other designs of Art Glass, see pages 289 to 308.

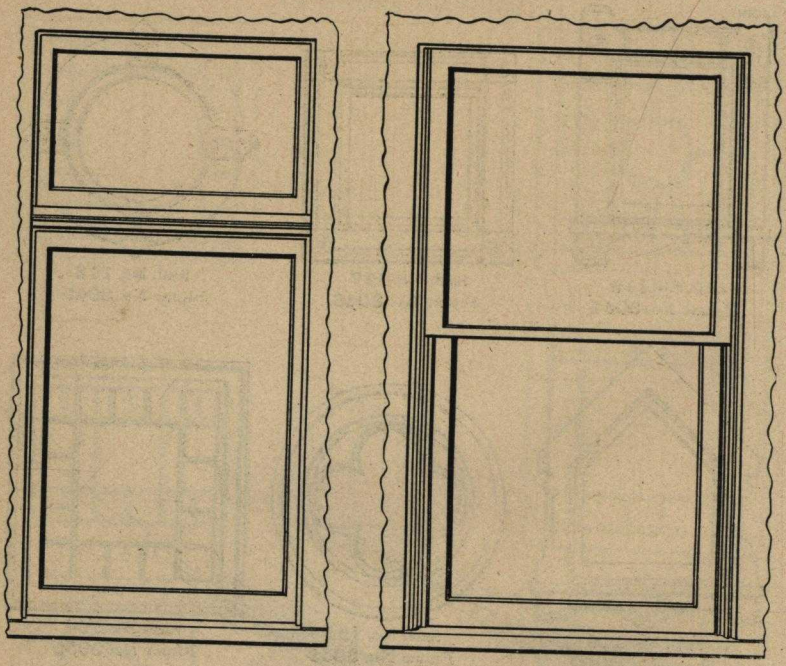
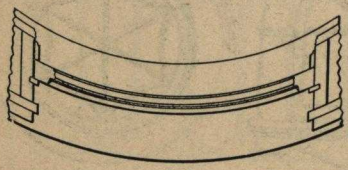
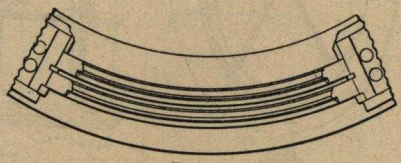
# BENT OR BOW FACE WINDOWS.



These Windows are very attractive in circular tower or long windows. In ordering, always give the radius to the inner face of either top or bottom Sash (stating which it is), or better still, give radius to the center of parting stop, giving exact thickness of the stop. Also state whether the window jambs are set parallel, like sketch A I, or at right angles, as in sketch B I.



A 1
Parallel Jambs.



B 1
Jambs at Right Angles.

# INSIDE FOLDING BLINDS.

WE MAKE a specialty of Inside Blinds, turning out the very best of work, all smooth, clean, selected stock, suitable for oil finish; and by giving particular attention to this branch of our business are able to compete in prices and give best workmanship.

We get out Inside Blinds in White Pine, Yellow Pine, Oak, Cherry, Walnut, in fact all woods and any description or style suitable to different markets.

## ..... PRICE LIST .....

### 1⅛-Inch O. G. STILES and RAILS, BEVEL PANEL or ROLLING SLATS

(MEASURING HEIGHT OF WINDOW)

| | | |
|---|---|---|
| 2 | Fold up to and including 2 feet wide, per foot..... | $ .85 |
| 3 | Fold up to and including 2 feet 11 inches wide, per foot | 1.10 |
| 4 | Fold up to and including 2 feet 11 inches wide, per foot | 1.25 |
| 4 | Fold over 2 feet 11 inches wide and under 4 feet, per foot | 1.40 |
| 6 | Fold over 2 feet 11 inches wide and under 4 feet, per foot | 1.65 |

For ⅞ inch deduct 5 per cent.

The above prices are for Pine. If Hardwood is wanted, such as Cherry, Ash, Maple or Black Walnut, we charge extra price.

**Write for Prices on Quantities.**

## DIRECTIONS FOR ORDERING.

First—In all cases give the exact ouside measure of Blinds wanted.

Second—Give the number of folds.

Third—State if Blinds are to be all slats, or one-half panel and one-half slats. For arrangement of panels and slats see opposite page. Order by number.

Fourth—State distance from top of window to center of meeting rail of sash, or where blinds are to be cut.

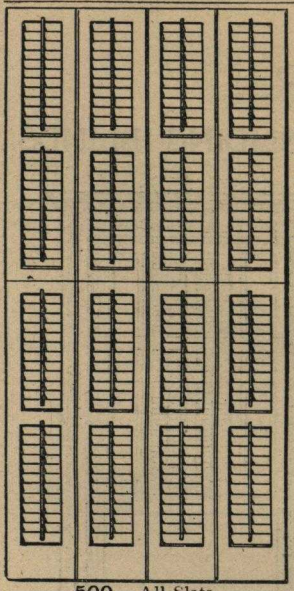
Fifth—Give thickness of Blinds.

Sixth—If Blinds fold in pockets, give the size of pockets.

Seventh—State if Blinds are to be painted or finished in oil.

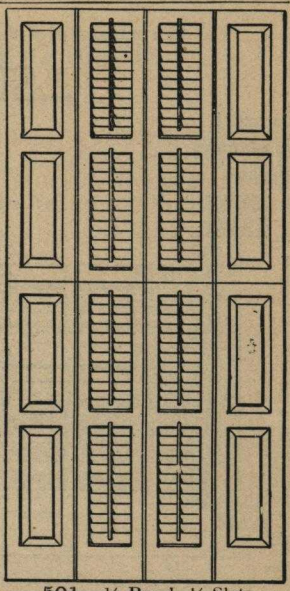
Eighth—If for oil finish, extra price.

# INSIDE BLINDS.

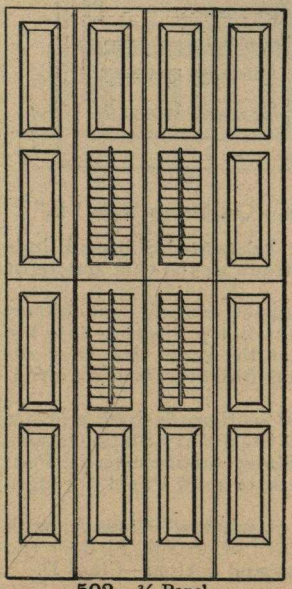


500—All Slats.

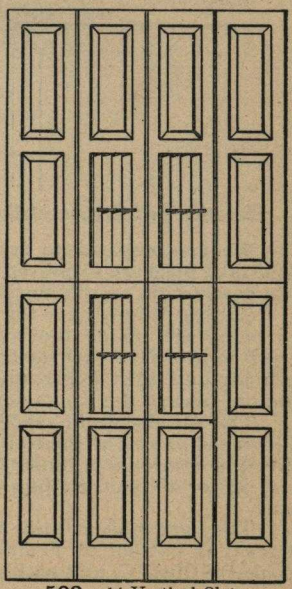
In ordering, refer to these numbers, to show style and arrangement of panels desired.



501—½ Panel, ½ Slats.



502—¾ Panel.



503—¼ Vertical Slats.

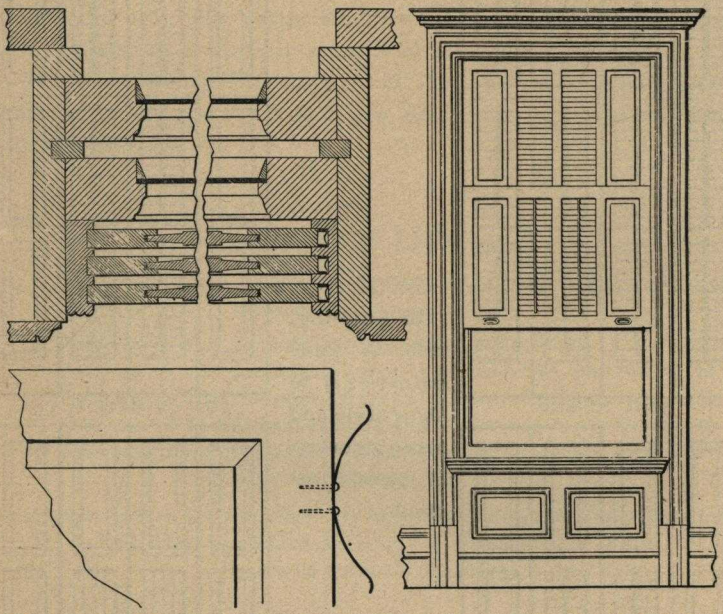
## INSIDE SLIDING BLINDS.



**Elevation and Section of Superior Inside Blinds. Cut Shows Style "B."**

We are prepared to furnish these justly celebrated Sliding Blinds and take pleasure in presenting them to our trade as the best article of the description on the market.

Sliding Blinds have the advantage of compactness and convenience in being set inside the window frames, thus not projecting into the room to interfere with curtains or draperies, at the same time they admit air and light freely, and as designed and finished form an ornamental part of the wood-work.

The Blinds can be made in any number of sections desired, and are furnished in any of the following styles: All Stationary Slats; Outside division Stationary, center division Rolling Slats; Outside division Panels, center division Rolling or Stationary Slats; or solid Panel throughout.

They are made to slide to top or bottom of window—Class A; with Pocket at bottom of Frame—Class B (see cut); or to run to floor (no pocket)—Class C, and with pockets at both top and bottom—Class D.

# SUPERIOR INSIDE SLIDING BLINDS.

## DIRECTIONS FOR ORDERING.

Give the exact measurement of the opening which the Blinds are to fill. Where guideways take the place of stops, state distance from face of casing to inner face of lower sash. If windows are circle head or segment inside, send exact pattern or give radius. Full information for hanging accompany each order.

## PRICE LIST.

Prices given are per lineal foot in height, including necessary hardware.

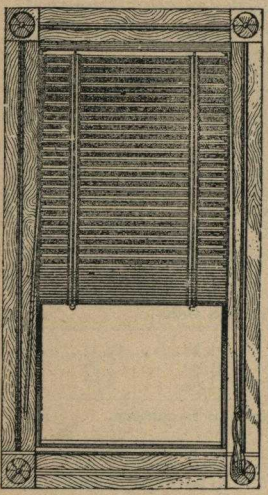
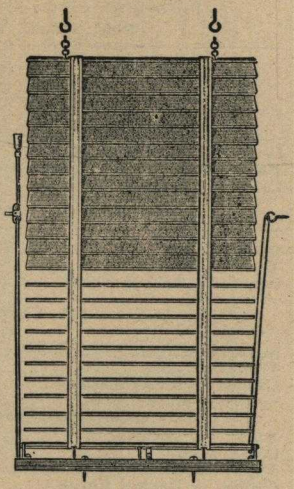
## "The Victoria"



Victoria Blind,
Partially Raised.



Showing how Victoria Blind
Is Hung.

**IN VICTORIA VENETIAN BLINDS** are combined the good qualities of a Window Shade and the Swinging Inside Blind. They admit the light and air, if desired, while excluding the sun.

**THEY ARE COMPACT** and easy of manipulation, clean and sanitary, and comparatively low in cost.

**IN THE VICTORIA BLIND** a simple tightening of the cord raises and lowers, opens and closes them, either wholly or partially, as desired.

**THEY ARE SUBSTANTIALLY BUILT,** easily put in place (a hammer and screw driver are all the tools necessary), and will not get out of order easily.

**Try them.**

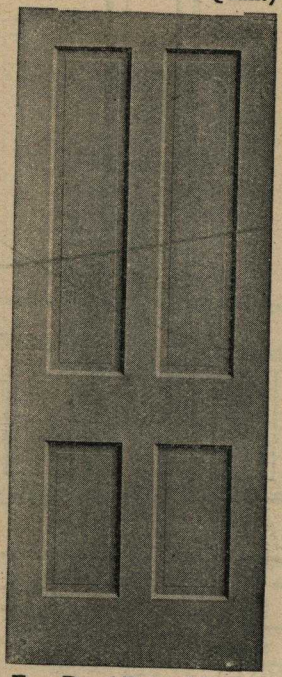
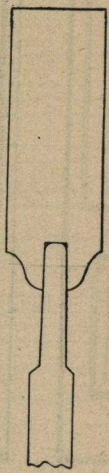
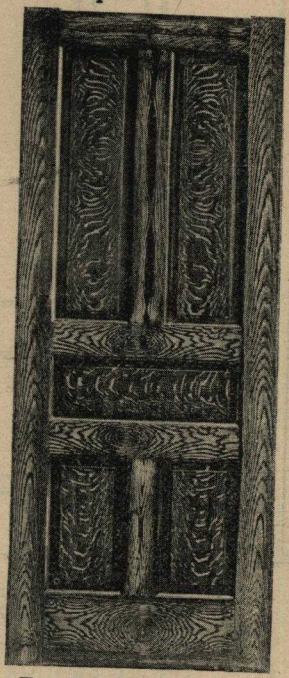
**For Quality and Finish they have no equal.**



Four-Panel Painted Door.
M 200





Five-Panel Grained Door.
M 201

**The Handsomest and Best Low-priced Doors on the Market.**

## THE "SUPERIOR" PAINTED DOORS

are made from thoroughly seasoned kiln-dried lumber, as carefully manufactured as our higher priced stock. They are shellaced and painted two heavy coats of Pure Paint, giving them a glossy finish, a light French gray in color.

## THE "SUPERIOR" GRAINED DOORS

are treated in the same manner as the Painted Doors, the standard finish being in imitation of Oak (see cut), the stiles and rails Plain Red Oak, the panels Quarter-sawed, giving a rich and tasty appearance to the doors.

The following sizes in stock ready to ship on receipt of order:

FOUR PANEL, PAINTED OR GRAINED.

| | |
|---|---|
| 2-6 x 6-6, 1⅛ and 1⅜ | 2-10 x 6-10, 1⅛ and 1⅜ |

**FOR PRICES SEE OUR BLUE BOOK.**

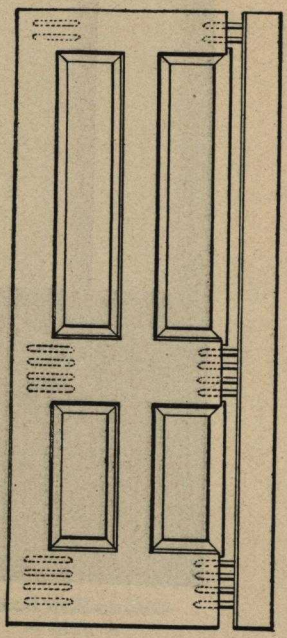
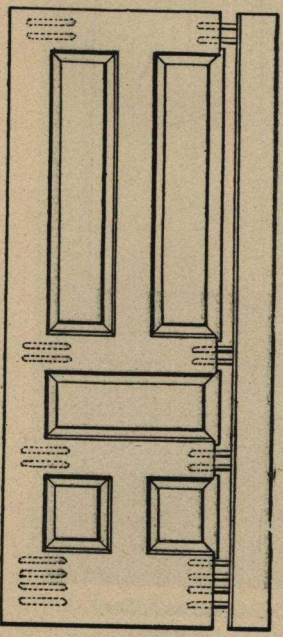
# THE MORGAN CO'S.

## SUPERIOR DOWELED DOORS

**The Strongest and Best Door Made.**





OUR SUPERIOR DOORS are built on the Dowel principle, under our personal supervision, by especially designed machinery and are as near perfection as the best machinery and long experience in manufacturing can make them. The Dowels and joints are thoroughly glued with high grade glue insuring joints that cannot open, and every Door is warranted to stand.

THE LUMBER we use is the celebrated Cork Pine, which for door-making purposes is unequaled. All stock used in our factory is thoroughly air seasoned, and to secure the perfect dryness necessary to smooth machine work, is then kiln-dried by our special process—a treatment which dries but does not impair the strength or life of the wood.

WE FINISH ALL DOORS on a wood-polisher, giving a smooth surface, suitable for Varnish Finish, should it be desired.

TRADE REQUIRING RELIABLE DOORS, strictly first-class, will find our Superior Doweled Doors the article they are looking for.

# Cottage Front Doors

OF THIS LINE we have made a SPECIALTY for several years, giving particular attention to the production of the NEATEST and MOST ATTRACTIVE DESIGNS of FRONT DOORS, such as can be most profitably handled by the retail dealer; and in stating that we offer you a line of these Doors SUPERIOR TO ANY OTHER on the market, we are making a statement which a personal inspection of our stock will verify.

The taste and care for detail and proportion with which our Doors are designed, is attested by the fact that a large number of the designs now recognized in the Universal list, were FIRST INTRODUCED to the trade by THIS HOUSE.

A full line of standard styles in White Pine is shown in the following pages of this book, but we are constantly adding new numbers to our already extended list, which we can safely say is the largest in the country; hence can assure you that your wants can be met, whatever they may be.

As in our Stock Doors, all material used in these Doors is carefully selected and Kiln Dried, all mitres and joints are faultless, the Carvings are well executed, Mouldings are of neat new patterns, smoothly finished, and the general get up of the Doors is tasty and pleasing.

We also MAKE ANY OF THESE STYLES TO ORDER in YELLOW PINE, CYPRESS or any HARDWOOD; either SOLID or VENEERED.

# Standard Front Doors...

THE DESIGNS shown in these pages will establish the claim that we make and carry in stock the largest and handsomest line of FRONT DOORS offered by any house in the country. The variety of styles and values presented fit them to the requirements of any trade. While low in price they are in no sense "cheap" doors, being carefully built and finished in the workmanlike manner which distinguishes our work. These doors are trade makers of the first order.

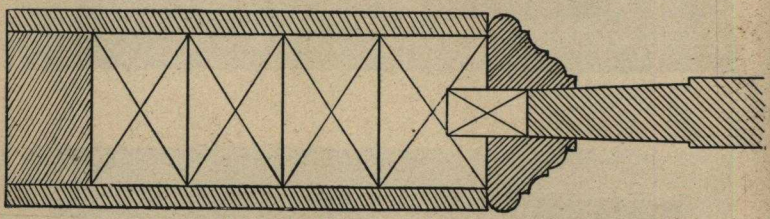
# VENEERED DOORS

FRONT, VESTIBULE AND INTERIOR DOORS
in NATIVE AND FOREIGN CABINET WOODS.



Section of VENEERED DOOR built on laminated core.

"THE VENEERED DOORS WE BUILD WILL STAND."

THIS DEPARTMENT of our works with complete and modern equipment enables us to handle a large volume of orders promptly and efficiently.

THE WORK we manufacture is built by skilled mechanics, under intelligent superintendence, and in quality is not excelled by any.

THE VENEERED DOORS we make are built on laminated cores (see cut above) of thoroughly dry stock, the Veneers being selected for uniformity of color and to show the natural beauty of the woods to best advantage; only the very best materials are used and the result is a door as nearly perfect as can be made.

WE CARRY under cover a large variety of hardwoods, native and foreign, and can fill orders for a wide variety of work with promptness.

..... It Pays to Handle Reliable Goods .....

## VENEERED FRONT DOORS.

M 676

## STANDARD VENEERED FRONT DOORS.

**THESE HANDSOME FRONT DOORS** we carry in stock ready for immediate shipment. The demand for this finer class of doors is steadily increasing, and as it is at times a great inconvenience to wait until doors of special design can be made to order, we have placed these in our stock and are prepared to furnish them to the trade on demand.

We make them in quantities and sell at prices correspondingly low. Nothing handsomer in style or finish can be had.

**The following sizes carried in stock made of Wisconsin Plain Red Oak:**

2-10 x 7-0, 1¾ inch thick
3-0 x 7-0, 1¾ inch thick

**Other Sizes Made to Order.**

We furnish **Handsome Glazings** for these doors in great variety, including: **Plain Beveled Plate, Mitered Beveled Plate** (in special designs) **Beveled Plate in Leaded or Copper Sash.**

**For Prices See Our Blue Book.**

# INTERIOR FINISH

## CASINGS, PANELING, SPECIAL MOULDINGS IN PINE OR THE HARDWOODS.

A LARGE and well equipped department of our factory is devoted exclusively to the manufacture of Fine Interior Woodwork in all its details. We employ only skilled mechanics, accustomed to work from drawings and details, use the utmost care in selecting materials, and turn out a class of work which ranks with any produced. Our stock of Hardwood Lumber is always large and varied, including Oak, Ash, Gum, Walnut, Cherry, Mahogany, etc., from which woods we are prepared to furnish any requirements in this line.

.....We solicit an opportunity to estimate on this variety of work in either the cheaper or more expensive grades. Send the details and architect's specifications and we will submit prices at any time.

# Mouldings

THE MANUFACTURE OF FINE MOULDINGS is a department of which we have made a specialty for years. None better than Mouldings of our manufacture are made, and trade who have handled them will uphold our claim that wherever introduced they establish the standard of excellence.

This department of our works is equipped with eight heavy Moulders of the latest improved type. We have extensive dry-kiln capacity, use only bone-dry lumber, which insures smooth machine work, and can GUARANTEE SATISFACTION to dealers ordering of us.

WE CARRY IN STOCK constantly a full line of
WHITE PINE MOULDINGS,
(Chicago Moulding Book patterns).
Also a select line of
YELLOW PINE,
BASSWOOD and
RED OAK MOULDINGS
for house trim, and can fill orders promptly.

Our Facilities for the manufacture of
HARDWOOD MOULDINGS
FOR FINE INTERIOR WORK, also
CUT MOULDINGS
in large quantities are not excelled.

When wanting close prices on cleanly run high class stock, write to

THE MORGAN COMPANY.

# Parquet Flooring...

## and Wood Carpet.

IT is almost needless to mention the advantages of this Flooring over the health destroying and uncleanly carpets. It has come to be considered indispensable in the well regulated household, and especially do physicians recommend it from a sanitary point of view. We make it in two thicknesses, ¼ of an inch and ⅞ of an inch. The former we refer to as THIN and the latter as THICK. The thin flooring we make in straight carpeting, 28 and 36 inches wide, which can be rolled up like oil cloth and is thus easily shipped. The parquet flooring we make in sheets 2x6 feet (except pattern No. 60, which is made in blocks 1 foot square). The borders and strips are 12 feet long. The woods used are all kiln dried, prepared so as to prevent shrinkage, and glued on cloth, which enables us to make it at a much less cost than the Thick, as we utilize the floor already down.

The Thick Floors as used in Europe, are made in three ways; the first being simply tongued and grooved lumber laid diagonally or in other patterns; the second is made in pieces cut and fitted together in blocks of the desired pattern (in sections usually, 12 to 22 inches square); and the third method is to make up the design required, from lumber ¼ of an inch thick, edges glued together and all glued to a backing of pine. This latter is called a Veneered Floor and is used in the more elaborate designs. Our prices are for the goods uncut and measured before laid. It is impossible for us to cut the goods here to fit any desired place. Any good carpenter or cabinet maker can lay our floors and do a good job from our working drawings and instructions. We shall be pleased to submit special designs to fit any rooms, if you can not find a suitable pattern in the catalogue.

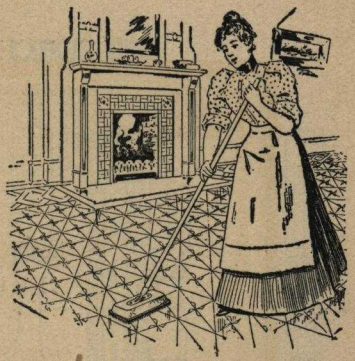
# Floor Wax

## BRUSHES ETC.



A WAXED SURFACE has always been considered perfection for floors. It is the only finish used in Europe, where they take great pride and care in keeping the floors in order. Until HARD WAX POLISH was prepared and put on the market, it was necessary to either use crude beeswax or get the assistance of an expert. The result has been, that owing to the inconvenience, and in some cases impossibility of getting a wax mixture that would harden, the crude article has been used and found far from satisfactory. Our Floor Wax is the result of a series of experiments, and perfection is guaranteed. With the aid of a weighted brush the floor can be kept in good condition and with far less labor than keeping woolen carpets clean. In finishing new floors we lay particular stress on having them thoroughly scraped and sandpapered at the start. After this is done, use one coat each of our Paste Wood Filler and Floor Renewer (directions on package); after these coats are perfectly dry and hard apply a good coat of our HARD WAX POLISH, spreading it well and see that it is well rubbed in. When dry (in about 30 minutes) use the weighted brush, rubbing across the grain first, then with the grain, until a good polish results. Finish with a piece of Brussels carpet under the brush to increase the lustre.

# STAIR WORK

THE display feature of every house, be it the handsome Mansion or modest Cottage, is always the Stairway. Given the most prominent place in the house, its style, proportions and finish go far to fix the character of the interior. Taste in the selection of the design is essential, but GOOD, RELIABLE MATERIALS, HONESTLY BUILT BY SKILLED MECHANICS, finished with proper care for every detail, are more important still. For designs, we offer in the following pages a few tasteful suggestions, promising that if placed with us, the work, if from our designs or those of your architect, shall be of a quality unsurpassed by any. With long experience in building Stair Work of every kind and our superior factory equipment we have every facility for turning out good work at close prices. We make everything in the line of Stairs and Stair Work, the elaborate and costly as well as the tasteful and cheaper work for modest homes. Our work of either kind is the best and our prices the very lowest.

## STANDARD STAIR WORK.

THE ECONOMY in using the Standard Stair Work shown on pages 209, 210 and 211, wide-awake buyers cannot afford to ignore. These tasteful patterns of Stair Work made of Wisconsin Plain Red Oak, we make in large quantities, carry constantly in stock, ready for immediate shipment, and sell at prices that defy competition. The work is equal in style and finish to any made.

# Church Fittings

WINDOWS, DOORS, FINISH,
PEWS AND PULPITS.

ON the following pages are shown designs for Church Fittings and the Mill work for Church Edifices, such as will be found useful by the general trade. We offer these as suggestions and shall be pleased to submit prices on same, or to make figures on work of similar character made to Architects' designs.

As in our other departments, we build this work in the most substantial and elegant manner, giving a finish to all the details which stamps it as the best.

YOUR ORDERS ARE SOLICITED.

**Write for prices.**

# HARDWOOD MANTELS.

WE SHOW A LINE OF MODERN MANTELS, artistically designed, well made and nicely finished on the following pages. Our prices are lower than ever and bring this ornamental and useful furnishing within the reach of everyone. We manufacture these Mantels principally in QUARTER SAWN OAK, RED BIRCH or BIRCH STAINED in imitation of CHERRY and MAHOGANY. The Quarter Sawn Oak is usually finished in the Natural, but can, if preferred, be finished in Medium, Antique or Old English. Where a sample of the room finish is sent we treat the Mantel to correspond, and generally without extra cost.

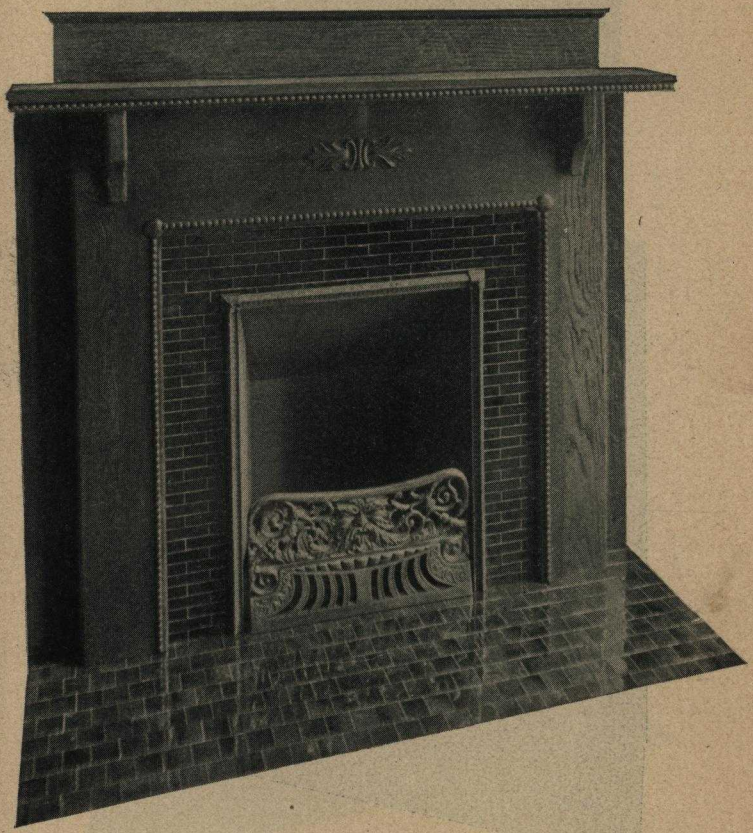
Any of the designs shown can be furnished in Curly Red Birch at an advance of 15 per cent., in Birds Eye Maple at an advance of 30 per cent., or in White and Gold at an advance of 30 per cent. For genuine CHERRY the advance will be 15 per cent. over and above the price for Birch Stained in imitation of Cherry. Write for special prices if Mantels are desired in other woods.

The enameled and embossed tiling on face and hearth, as shown in cuts can be changed about and put in any Mantel to suit your taste. If the selection of tints and shades of tiling is left with us, we select them to harmonize with the different woods and finish, or if desired, we can forward sample for your own selection.

Our prices, you will notice, include everything necessary to complete the Mantel, excepting the fire brick, which can be procured at your place at about the same price as in Chicago, thereby saving unnecessary freight charges on same. Our Mantels are made with adjustable wall plates to fit chimney Breast from 4 feet 10 inches to 5 feet 4 inches. YOU ALSO HAVE THE CHOICE OF THREE DIFFERENT GRATES AT PRICES QUOTED. We recommend the Club House Grate. Mantels will weigh about 300 lbs. complete, boxed for shipping.

In ordering give width of chimney breast, kind of wood and finish and style of grate desired.

# HARDWOOD MANTELS.



DESIGN M 300

MADE of Quarter Sawn Oak, finished NATURAL, MEDIUM, Antique or Old English, Red Birch or Birch Stained to imitate Cherry or Mahogany. ME Red....500 square feet....weight, 40 lbs.
MCC Gray...500 square feet....weight, 20 lbs.

## Prepared Roofing.

The Unequaled
"Old Philadelphia"
Ready Roofing....

Durable as Iron.
Cheaper than Shingles.

THE OLD PHILADELPHIA Roofing is beyond question the best and most enduring Prepared Roofing on the market. It is composed of either two or three layers of best quality Wool Felt, saturated with distilled coal tar, between each sheet of which a layer of insoluble cement is rolled under heavy pressure, forming one solid sheet of tough, yet flexible material. It does not impart a taste to rain water. It will stand any climate, is not affected by acids, vapors or steam; is absolutely water proof and practically fire proof, if properly coated and graveled. It weighs less than tin, iron or shingles, is cheaper and more easily repaired. It may be applied to either flat or steep roofs, or put on over old shingles. Each roll is 32 inches wide and 40 feet long, containing enough to cover a square of surface 10x10 feet, including the 2 inches allowed for lap.

### ROOFING COMPLETE.

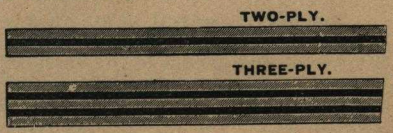
Two Ply—One square complete contains to cover surface 10 x 10 feet:
1 Roll 2 Ply Felt, 2 Gallons Slag Cement, 1 lb. Tin Caps, 1 lb. Roofing Nails..... per square $2.25

Three Ply—One square complete contains to cover surface 10x10 feet:
1 Roll 3 Ply Felt, 2 Gallons Slag Cement, 1 lb. Tin Caps, 1 lb. Roofing Nails..... per square $2.75

**Roofing Only.**

Two Ply.....per roll $1.55
Three Ply.....per roll $2.20

**Above prices subject to dealer's discount.**



### ROOFING SUPPLIES—Slag Cement Coating.

Barrels..... 40 to 50 gallons
Half Barrels..... 25 to 30 gallons
Kegs..... 10 to 15 gallons
Cans ..... 5 to 10 gallons

**Tin Roofing Caps.**

In Kegs.....each 50 lbs.
Smaller packages as ordered.

**Barbed Roofing Nails.**

In Kegs.....each 100 lbs.
Smaller packages as ordered.

Roofing Brushes—Two, Three and Four Knot Brushes.

Our "SUPERIOR" Brand

Window Blind Green No. 5639, $1.20 per gallon in advance over above prices.

## DIRECTIONS FOR USE.

1st.—Be sure that the surface to be painted is dry and well seasoned; that it is not pitchy and contains no sappy streaks. Shellac all knots with Alcohol Shellac Varnish.

2nd.—Never spread paint on a wet surface nor immediately after a rain or frost. Moisture in the wood is sure to be vaporized by the sun's heat and drawn to the surface, thereby causing the paint to peel.

3rd.—Be careful not to put on the priming coat too thick. Add 1 part of Pure Linseed Oil to 4 parts of Paint, as it is in the package, and nothing else. For inside work thin with turpentine, instead of oil.

Rub Out Well Under the Brush.

4th.—The first coat should be dry and hard before the second coat is applied. For second coat use the paint as it is in the package.

5th.—Remember that if a wet freeze comes on before the paint is dry and hard it may come off.

6th.—Use nothing but strictly Pure Linseed Oil to thin with.

Write for Color Card.

**Prices subject to discount.**

Our "SUPERIOR" Brand

# Ready Mixed Paints.

OUR PAINTS will not crack or peel off if directions are followed, and will retain a rich surface that will wear for years. We can also furnish Varnish, Wood Preservatives, Wood Filler, etc., at market prices. A sample order will insure us your patronage in the future.

# The Blue Book

WE ISSUE MONTHLY, or upon any change in the market, a little price pamphlet—THE BLUE BOOK—giving Discounts and Net Prices on all Standard Mill Work in our vast assortment. This little Blue Book in connection with our Special Catalogue, the KEY TO SATISFACTION gives an accurate guide and key to our stock, showing what we have on hand ready for immediate shipment and what it will cost. To Mail Order Trade this little Blue Book will be found invaluable.

## MAIL ORDERS.

WE SOLICIT PARTICULARLY the Mail Orders of the trade. Our trade extends over a wide territory, making it impossible to depend on personal sales of traveling representatives, and the bulk of our business is therefore solicited and received through the mails. The complete and efficient organization of our offices is designed especially for such trade. Orders mailed to us, though received without specific quotations, will be forwarded at lowest card rates, and any change in the market favorable to our customers will be allowed them.

WE HAVE THE LARGEST
and MOST COMPLETE STOCK
of all kinds of MILL WORK IN AMERICA.
